

Will Enright

Experience

Yext

July 2021 - June 2024

Software Engineering Tech Lead and Manager

- Led a team of 8 software engineers using Agile methodologies
- Oversaw a portfolio of 180+ clients, including FedEx, Verizon, and Subway, with a total annual contract value of over \$42 million
- Collaborated with project managers and designers to architect solutions that match the clients' visions
- Conducted interviews and mentored junior developers to help grow their programming skills

Yext

November 2018 - July 2021

Software Engineer

- Developed locator and landing pages for hundreds of thousands of retail locations using React
- Implemented data pipelines for ingesting millions of entities daily using Go
- Built a dashboard using Java to allow Allstate agents to customize their Yext pages

Capital One

September 2017 - October 2018

Associate Software Engineer

- Maintained a critical, highly available orchestration API which served millions of users daily
- Created a full stack support tool to debug and trace API requests using Django, Angular, and Kafka
- Designed health check, alerting, and failover strategies for AWS services to minimize downtime

Cisco Systems

May 2016 - November 2016

Software Engineering Intern

- Built an organization-wide issue tracking tool using Spring Boot and AngularJS
- Integrated the tool with company messaging application to easily track issue status

Sun Trading

July 2015 - August 2015

Software Engineering Intern

- Implemented systems to ensure regulatory compliance for a high-frequency trading system

Pod Trackers

May 2015 - July 2015

Software Engineering Intern

- Developed internationalization features and an interactive tutorial using AngularJS for an Ionic mobile app
