## Tools

## Experience

### Yext

July 2021 - Present

#### *Tech Lead Manager*

- Managed and led a team of 8 engineers using Agile methodologies
- Scoped, assigned, and reviewed development for 180+ clients, totalling over \$42m in ACV
- Continued to provide technical contributions to website and data transformation codebases

### Yext

November 2018 - July 2021

#### *Software Engineer*

- Developed templated websites that power landing pages for hundreds of thousands of retail locations using React and Closure Templates
- Ensured sites were SEO optimized, WCAG compliant, and fast
- Wrote ETLs to parse and upload client data using Go

### Capital One

September 2017 - October 2018

#### *Associate Software Engineer*

- Maintained a critical, highly available orchestration API which served millions of customers daily
- Created a full stack support tool to debug and trace API requests using Django, Angular, and Kafka
- Designed health check, alerting, and failover strategies for AWS services to minimize downtime

### Cisco Systems

May 2016 - November 2016

#### *Software Engineering Intern*

- Built an organization-wide issue tracking tool using Spring Boot and AngularJS
- Integrated the tool with company messaging application to easily track issue status

### Sun Trading

July 2015 - August 2015

#### *Software Engineering Intern*

- Wrote unit tests to ensure regulatory compliance for a high-frequency trading system

### Pod Trackers

May 2015 - July 2015

#### *Software Engineering Intern*

- Developed internationalization features and an interactive tutorial using AngularJS for an Ionic mobile app
